Dear City Council members,

As you face a big decision on Monday regarding Sid Commons, the first of several proposed developments along our river, I ask that you seek out information on the impacts your decision will have for decades and generations. Look beyond what you are hearing from the not-so-impartial staff to learn more about the implications of building in wetlands. Here are a few to get you started.

And please celebrate our river as a vein through our city — tomorrow is World Wetlands Day!

Thank you from a very concerned resident and voter,
Stacie
